

## **2010 Cancer Grant Recipients**

### **Dr Elizabeth Tegg**

Menzies Research Institute, TAS

The Tasmanian Familial Hematological Malignancy research study.

### **Dr Bajee Krishna Sriram**

The Prince Charles Hospital, QLD

The Clinical Utility of High Resolution Melt Analysis in Detecting EGFR Mutations in the Serum of NSCLC Patients.

### **Dr Thomas John**

Ludwig Institute for Cancer Research/Austin Health, VIC

Cancer-Testis antigen expression as immunohistochemical and serological predictors of response to neoadjuvant chemotherapy in Non-Small Cell Lung Cancer.

### **Dr Fiona Day**

Ludwig Institute for Cancer Research, VIC

Alterations in Key Signalling Pathways in Colorectal Cancer: Predicting Response to Treatment and Patient Outcome.

### **Dr Steven Lane**

Queensland Institute of Medical Research, QLD

Evaluation and validation of telomerase as a therapeutic target in leukaemia stem cells.

### **Dr Saar Gill**

Peter MacCallum Cancer Centre, VIC

Telomere Erosion, Cytopenias and Treatment-Related Leukaemia in Patients Receiving Chemotherapy for Lymphoid Neoplasia.
