

2010 CVL Grant Recipients

Dr Bruce Campbell

Royal Melbourne Hospital, VIC

Acute Stroke Imaging: Improving patient selection for treatment in ischemic stroke

Dr Melanie Freeman

Austin Hospital, VIC

Novel markers of cardiac injury in patients with unstable and stable coronary syndromes.

Dr Emily Gianatti

Austin Health, University of Melbourne, VIC

Testosterone treatment in men with type 2 diabetes mellitus and borderline low total testosterone levels.

Dr Onn Akbar Ali

The Queen Elizabeth Hospital, SA

Endothelial and platelet dysfunction in association with bicuspid aortic valve.

Dr Camilla Wainwright

St Vincent's Hospital, NSW

Cardiac magnetic resonance imaging in the assessment of cardiotoxicity from Herceptin chemotherapy for Breast cancer.

Dr Andy Yong

ANZAC Research Institute, NSW

Coronary stenosis severity and intracoronary upregulation of platelet P-selectin in patients taking aspirin and clopidogrel.

Dr Benjamin Dundon

Cardiovascular Research Centre, University of Adelaide, SA

Evaluation of Elective Arterio-venous Fistula Ligation to Improve Cardiovascular Structure and Function following successful Renal Transplantation.

Dr Austin Ng

Concord Hospital, NSW

Long-term mortality and late pulmonary hypertension after acute pulmonary embolism

Dr Angus Thompson

Sir Charles Gairdner Hospital, WA

Dendritic Cell Migration and Apoptosis are modified by Statins in healthy and atherosclerotic subjects

Dr Pupalan Iyngkaran

Monash University, VIC

Utility of NGAL and Renal Biomarker Panel in Predicting Renal Impairment, further decompensation and rehospitalization in Acutely Decompensated & Chronic Heart Failure Patients: Biomarker Panel Substudy.

Dr Dechaboon Changsirivathanathamrong

University of Sydney, NSW

Indoleamine 2,3-dioxygenase in the novel regulation of vascular tone.

Dr Christine Jellis

University of Queensland, QLD

Non-invasive cardiac imaging in the detection and assessment of subclinical diabetic heart disease.

Dr Melissa Leung

Liverpool Hospital, NSW

Diabetic cardiomyopathy: early detection with strain and strain rate imaging assessment of left ventricular contractile reserve and its relationship with microvascular disease.
